

Extempprep.org Ranking Tables

The extemp rankings for Extempprep.org have been a interest to various competitors since their initial creation. While not a comprehensive ranking of tournaments the tournament point tables below provide an explanation of how the rankings are calculated.

The rankings are based upon a competitor's top 5 finishes as indicated by the number of points that the tournament earned them towards their ranking. Therefore a competitor who goes to 10 tournaments will not necessarily have an advantage over the person that only went to 5 tournaments. In addition, in the case of a tie in ranking points the individual with the least number of tournaments is ranked higher. NFL Nationals, NCFL Nationals, the MBA Round Robin, Extemp TOC are the only tournament results included from the previous year. All other results are as of the current season.
